

## Ozark Highlands (Ecoregion 39)

The Ozarks formed as the Ouachita mountains weighted down the edge of the North American continent, flexing the crust of the Arkoma Basin upward; younger sedimentary layers then eroded away, exposing the older, Paleozoic rocks that dominate the area. Ecoregion 39 is composed of the Springfield and Salem plateaus and largely underlain by highly soluble and fractured limestone and dolomite.

It is level to highly dissected, partly forested and rich in karst features. Caves, sink-holes and underground drainage occur, heavily influencing surficial water availability and water temperature. Clear, cold, perennial, spring-fed streams are common and typically have gravelly substrates; in addition, many small dry valleys occur.

**Figure 3.4.** Ozark Highlands Ecoregion.

### *Ozark Highlands - Springfield Plateau*

Ecoregion 39 is not as mountainous as Ecoregions 36 or 38, but is higher and more rugged than Ecoregion 73. Habitat diversity and species richness is high. Soils are often cherty and have developed from carbonate rocks or interbedded chert, sandstone and shale; mesic Ultisols, Alfisols and Mollisols are common. Soil order mosaic, soil temperature regime and lithology are all distinct from nearby Ecoregions 36, 37, 38, and 73.

Potential natural vegetation is mostly oak-hickory forest. Open forest dominates rugged areas and pastureland and hayland are common on nearly level sites. Shortleaf pine grows on steep, cherty escarpments and on shallow soils derived from sandstone; it becomes more common in Ecoregions 35, 36 and the southern portion of Ecoregion 38. Glades dominated by grass and eastern redcedar are found on shallow, droughty soils especially over dolomite.

Primary land uses are logging, housing, recreation and, especially, poultry and livestock farming. Water quality in the Ozark Highlands (39) is different from the other ecoregions in Arkansas and is strongly influenced by lithology and land use practices. Alkalinity, total dissolved solids and total hardness values are relatively high, reflecting the influence of Ecoregion 39's distinctive limestone and dolomite. Fecal coliform and nitrite-nitrate values are elevated downstream of

improved pastureland that is intensively grazed by cattle and fields where animal wastes from confined poultry and hog operations have been applied. Parts of Ecoregion 39 are experiencing rapid population growth along with associated habitat alteration and water pollution. Fish communities characteristically have a preponderance of sensitive species and are usually dominated by a diverse minnow community along with sunfishes and darters.

## Springfield Plateau

39a. The nearly level to rolling Springfield Plateau is underlain by cherty limestone of the Mississippian Boone Formation; it is less rugged and wooded than Ecoregions 38, 39b and 39c and lacks the Ordovician dolomite and limestone of Ecoregions 39c and 39d. Karst features, such as sinkholes and caves, are common. Cold, perennial, spring-fed streams occur.

Upland potential natural vegetation is primarily oak–hickory and also oak–hickory–pine forests; savannas and tall grass prairies also occurred and were maintained by fire. Today, most of the forest and almost all of the prairies have been replaced by agriculture or expanding residential areas. Poultry, cattle and hog farming are primary land uses; pastureland and hayland are common. Application of poultry litter to agricultural fields is a non-point source that can impair water quality. Total suspended solids and turbidity values in streams are usually low, but total dissolved solids and hardness values are high.

## Dissected Springfield Plateau–Elk River Hills

39b. The Dissected Springfield Plateau–Elk River Hills are underlain by cherty limestone of the Mississippian Boone Formation and contain many karst features. Cold, perennial, spring-fed streams occur. Ecoregion 39b is more rugged and wooded than the lithologically similar Springfield Plateau (39a) and the lithologically dis-similar Central Plateau (39d).

Potential natural vegetation is oak–hickory and oak–hickory–pine forests. Short-leaf pine grows on the thin, cherty soils of steep slopes and is more common than in Ecoregion 39a, 39c and 39d. Scattered limestone glades occur, but are less extensive than on the dolomites of the lithologically distinct Ecoregion 39c.

Today, Ecoregion 39b remains dominated by forest and woodland. Logging, live-stock farming, woodland grazing, recreation, quarrying and housing are primary land uses.

## White River Hills

39c. The forested White River Hills ecoregion is a highly dissected portion of the Salem Plateau that is underlain by cherty Ordovician dolomite and limestone. Soils are usually thin, rocky, steep and nonarable. Flat land is uncommon except along the White River. Ecoregion 39c is lithologically unlike another highly dissected portion of the Ozarks, Ecoregion 39b, where Mississippian cherty limestone of the Boone Formation predominates. Clear, cold, perennial,

spring-fed streams are common, but dry valleys occur.

Potential natural vegetation is oak–hickory forest, oak–hickory–pine forest and cedar glades. Glades are more extensive than elsewhere in Arkansas and occur on thin, droughty soils derived from carbonates. Pine is most common on steep, thin, cherty soils. Ecoregion 39c includes Table Rock, Bull Shoals, Norfork and Beaver lakes. Turbidity and total suspended solids are usually low in its streams and rivers, but total dissolved solids and hardness values are high.

## Central Plateau

39d. The Central Plateau is an undulating to hilly portion of the Salem Plateau that is dominated by agriculture. Ecoregion 39d is largely underlain by cherty Ordovician dolomite and limestone; it is lithologically distinct from another slightly dissected part of the Ozarks, the Springfield Plateau (39a). Karst features occur. The Central Plateau (39d) is less rugged and wooded than Ecoregions 38, 39b and 39c.

Natural vegetation is oak–hickory forest, oak–hickory–pine forest (often on soils derived from sandstone), barrens (on thin soils) and scattered cedar glades (on shallow, rocky, droughty soils from dolomite or limestone).

Today, pastureland, hayland and housing are common, but remnant forests and savannas occur in steeper areas. Turbidity, total suspended solids, total dissolved solids and hardness values are often higher than in Ecoregions 39a and 39c (adapted from Woods and others 2004).

## Ozark Highlands Ecoregion:

### Species of Greatest Conservation Need (SGCN)

Species of greatest conservation need (SGCN) in the Ozark Highlands are presented by taxa association (Table 3.2). A higher priority score indicates a greater need for actions to conserve the species. Calculation of the priority score is discussed in Section 2, pages 5-8. A ranked list of all SGCN associated with the ecoregion is presented in Table 3.3.

**Table 3.2.** SGCN by taxa association in the Ozark Highlands.

Taxa Association	Common Name	Scientific Name	Priority Score
Amphibian	Ozark Hellbender	<i>Cryptobranchus bishopi</i>	100
	Oklahoma Salamander	<i>Eurycea tynerensis</i>	27
	Crawfish Frog	<i>Lithobates areolatus</i>	23
	Ringed Salamander	<i>Ambystoma annulatum</i>	19
	Grotto Salamander "western clade"	<i>Eurycea spelaea</i>	19
	Grotto Salamander "eastern clade"	<i>Eurycea spelaea</i>	19
	Grotto Salamander "northern clade"	<i>Eurycea spelaea</i>	19

	Boreal Chorus Frog	<i>Pseudacris maculata</i>	19
	Eastern Spadefoot	<i>Scaphiopus holbrookii</i>	19
	Hurter's Spadefoot	<i>Scaphiopus hurterii</i>	19
	Eastern Tiger Salamander	<i>Ambystoma tigrinum</i>	15
	Wood Frog	<i>Lithobates sylvaticus</i>	15
Bird	Piping Plover	<i>Charadrius melanotos</i>	43
	Henslow's Sparrow	<i>Ammodramus henslowii</i>	33
	Sprague's Pipit	<i>Anthus spragueii</i>	33
	Bachman's Sparrow	<i>Peucaea aestivalis</i>	33
	Buff-breasted Sandpiper	<i>Calidris subruficollis</i>	29
	Rusty Blackbird	<i>Euphagus carolinus</i>	29
	Bewick's Wren	<i>Thryomanes bewickii</i>	29
	Ruddy Turnstone	<i>Arenaria interpres</i>	24
	Smith's Longspur	<i>Calcarius pictus</i>	24
	Common Nighthawk	<i>Chordeiles minor</i>	24
	Migrant Loggerhead Shrike	<i>Lanius ludovicianus migrans</i>	24
	Yellow-crowned Night-Heron	<i>Nyctanassa violacea</i>	24
	American Woodcock	<i>Scolopax minor</i>	24
	Cerulean Warbler	<i>Setophaga cerulea</i>	24
	American Bittern	<i>Botaurus lentiginosus</i>	23
	Willow Flycatcher	<i>Empidonax traillii</i>	23
	Le Conte's Sparrow	<i>Ammodramus lecontei</i>	21
	Sedge Wren	<i>Cistothorus platensis</i>	21
	Sharp-shinned Hawk	<i>Accipiter striatus</i>	19
	Grasshopper Sparrow	<i>Ammodramus savannarum</i>	19
	American Black Duck	<i>Anas rubripes</i>	19
	Anhinga	<i>Anhinga anhinga</i>	19
	Eastern Whip-poor-will	<i>Antrostomus vociferus</i>	19
	Sanderling	<i>Calidris alba</i>	19
	Dunlin	<i>Calidris alpina</i>	19
	Stilt Sandpiper	<i>Calidris himantopus</i>	19
	Chimney Swift	<i>Chaetura pelagica</i>	19
	Yellow-billed Cuckoo	<i>Coccyzus americanus</i>	19
	Northern Bobwhite	<i>Colinus virginianus</i>	19
	Tricolored Heron	<i>Egretta tricolor</i>	19
	Purple Finch	<i>Haemorhous purpureus</i>	19
	Wood Thrush	<i>Hylocichla mustelina</i>	19
	Least Bittern	<i>Ixobrychus exilis</i>	19
	Short-billed Dowitcher	<i>Limnodromus griseus</i>	19
	Swainson's Warbler	<i>Limnothlypis swainsonii</i>	19
	Black-crowned Night-Heron	<i>Nycticorax nycticorax</i>	19
	Black-bellied Plover	<i>Pluvialis squatarola</i>	19
	Bell's Vireo	<i>Vireo bellii</i>	19

	Trumpeter Swan	<i>Cygnus buccinator</i>	17
	American Kestrel	<i>Falco sparverius</i>	15
	American Golden-Plover	<i>Pluvialis dominica</i>	15
Crayfish	Benton County Cave Crayfish	<i>Cambarus aculabrum</i>	80
	Hell Creek Cave Crayfish	<i>Cambarus zophonastes</i>	80
	Coldwater Crayfish	<i>Orconectes eupunctus</i>	50
	Mammoth Spring Crayfish	<i>Orconectes marchandi</i>	46
	Bristly Cave Crayfish	<i>Cambarus setosus</i>	34
	Williams' Crayfish	<i>Orconectes williamsi</i>	34
	Meek's Short Pointed Crayfish	<i>Orconectes meeki brevis</i>	30
	Midget Crayfish	<i>Orconectes nana</i>	30
	Hubbs' Crayfish	<i>Cambarus hubbsi</i>	27
	Neosho Midget Crayfish	<i>Orconectes macrus</i>	23
	Gapped Ringed Crayfish	<i>Orconectes neglectus chaenodactylus</i>	20
Fish	Arkansas Darter	<i>Etheostoma cragini</i>	43
	Ozark Cavefish	<i>Troglichthys rosae</i>	43
	Crystal Darter	<i>Crystallaria asprella</i>	38
	Stargazing Darter	<i>Percina uranidea</i>	38
	Western Sand Darter	<i>Ammocrypta clara</i>	33
	Ozark Shiner	<i>Notropis ozarcanus</i>	33
	Strawberry River Darter	<i>Etheostoma fragi</i>	29
	Least Darter	<i>Etheostoma microperca</i>	29
	Silver Redhorse	<i>Moxostoma anisurum</i>	29
	Longnose Darter	<i>Percina nasuta</i>	27
	Southern Cavefish	<i>Typhlichthys subterraneus</i>	27
	American Eel	<i>Anguilla rostrata</i>	24
	Paddlefish	<i>Polyodon spathula</i>	24
	Blue Sucker	<i>Cyclopterus elongatus</i>	23
	Bluntnose Shiner	<i>Cyprinella camura</i>	23
	Spotfin Shiner	<i>Cyprinella spiloptera</i>	23
	Sabine Shiner	<i>Notropis sabinae</i>	23
	Autumn Darter	<i>Etheostoma autumnale</i>	19
	Sunburst Darter	<i>Etheostoma mihileze</i>	19
	Current Darter	<i>Etheostoma uniporum</i>	19
	Mooneye	<i>Hiodon tergisus</i>	19
	American Brook Lamprey	<i>Lethenteron appendix</i>	19
	Pealip Redhorse	<i>Moxostoma pisolabrum</i>	19
	Striped Mullet	<i>Mugil cephalus</i>	19
	Redspot Chub	<i>Nocomis asper</i>	19
	Channel Shiner	<i>Notropis wickliffei</i>	19
	Gilt Darter	<i>Percina evides</i>	19
	Slenderhead Darter	<i>Percina phoxocephala</i>	19
	Highfin carpsucker	<i>Carpioles velifer</i>	17

	Highland Darter	<i>Etheostoma teddyroosevelt</i>	15
	Least Brook Lamprey	<i>Lampetra aepyptera</i>	15
	Saddleback Darter	<i>Percina vigil</i>	15

15	Wood Frog	<i>Lithobates sylvaticus</i>	Amphibian
15	American Kestrel	<i>Falco sparverius</i>	Bird
15	American Golden-Plover	<i>Pluvialis dominica</i>	Bird
15	Highland Darter	<i>Etheostoma teddyroosevelt</i>	Fish
15	Least Brook Lamprey	<i>Lampetra aepyptera</i>	Fish
15	Saddleback Darter	<i>Percina vigil</i>	Fish
15	Dusky Azure	<i>Celastrina nigra</i>	Insect
15	Gorgone Checkerspot	<i>Chlosyne gorgone</i>	Insect
15	Cow Path Tiger Beetle	<i>Cicindela purpurea</i>	Insect
15	Monarch	<i>Danaus plexippus</i>	Insect
15	Long-tailed Weasel	<i>Mustela frenata</i>	Mammal
15	Western Harvest Mouse	<i>Reithrodontomys megalotis</i>	Mammal
15	Fatmucket	<i>Lampsilis siliquoidea</i>	Mussel
15	Slender Glass Lizard	<i>Ophisaurus attenuatus</i>	Reptile
13	Twelve-spotted Tiger Beetle	<i>Cicindela duodecimguttata</i>	Insect
8	Arkansas agapetus caddisfly	<i>Agapetus medicus</i>	Insect

8	contorted ochrotrichian microcaddisfly	<i>Ochrotrichia contorta</i>	Insect
8	isopod	<i>Caecidotea salamensis</i>	Invertebrate - other

## Habitats that occur in the Ozark Highlands

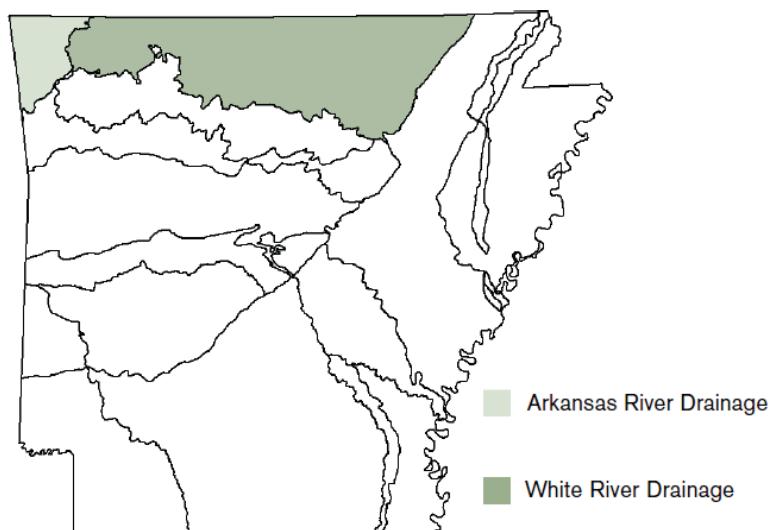

Of the 37 terrestrial habitats in Arkansas, 21 occur in the Ozark Highlands ecoregion (Table 3.4). Of 18 ecobasins in Arkansas, two occur in the Ozark Highlands ecoregion (Figure 3.5). These associations are described in the Section 4. Terrestrial Habitats and Section 5. Aquatic Habitats.

**Table 3.4. Terrestrial Habitats in the Ozark Highlands.**

### **Habitat Name**

Caves, Mines & Sinkholes, and other Karst Habitat  
Crop Land  
Cultivated Forest  
Herbaceous Wetland  
Interior Highlands Calcareous Glade and Barrens  
Interior Highlands Dry Acidic Glade and Barrens  
Mud Flats  
Ozark-Ouachita Cliff and Talus  
Ozark-Ouachita Forested Seep  
Ozark-Ouachita Dry Oak and Pine Woodland  
Ozark-Ouachita Dry-Mesic Oak Forest  
Ozark-Ouachita Mesic Hardwood Forest  
Ozark-Ouachita Pine-Oak Forest/Woodland  
Ozark-Ouachita Prairie and Woodland  
Ozark-Ouachita Riparian  
Pasture Land  
Ponds, Lakes, and Water Holes  
Ozark-Ouachita Large Floodplain  
Urban/Suburban

**Figure 3.5.** Ecobasin Distribution in the Ozark Highlands.

## Problems faced by Species of Greatest Conservation Need (SGCN)

Taxa association teams listed problems faced by SGCN individually in the Species Reports. A summary of the problems faced by SGCN in the Ozark Highlands is presented below. Each problem has a score which is a sum of all Species Priority Scores associated with species for which this problem was assigned. A higher score implies a higher quantity of SGCN and/or more greatly imperiled species associated with problems listed here.

**Table 3.5.** Problems faced by SGCN.

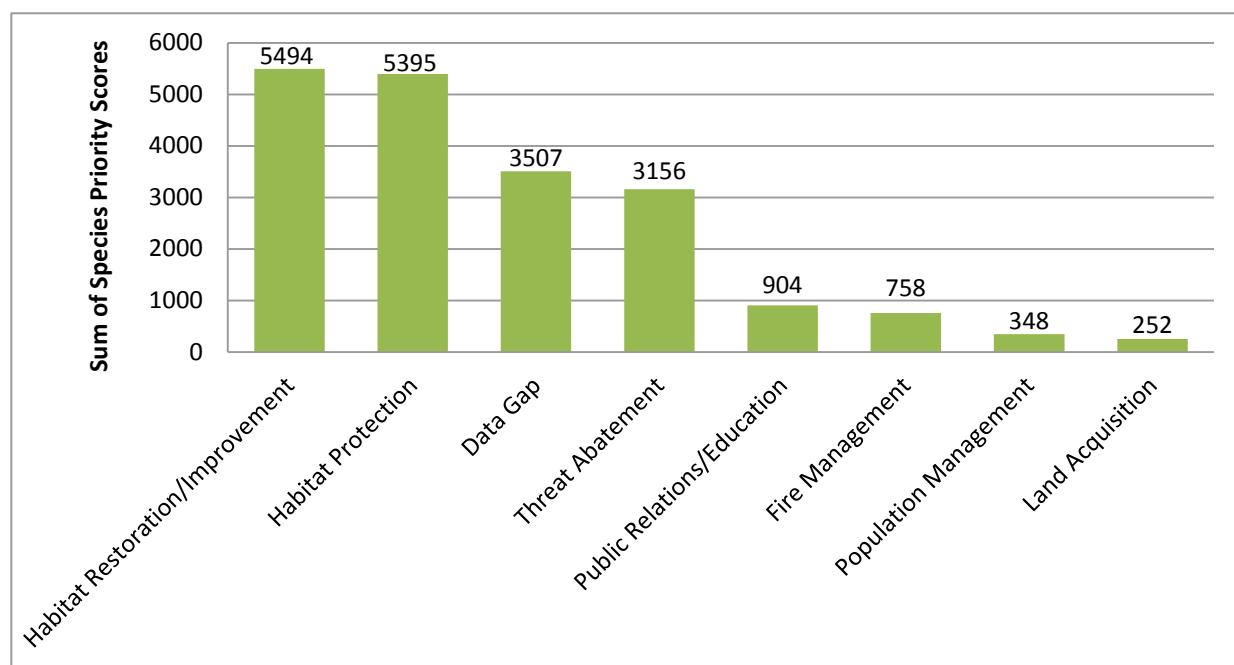

Problem Faced	Score
Urban development	3804
Grazing/Browsing	3213
Road construction	2033
Forestry activities	2015
Confined animal operations	1912
Agricultural practices	1793
Dam	1765
Resource extraction	1575
Recreation	933
Municipal/Industrial point source	695
Channel alteration	632
Fire suppression	621
Parasites/pathogens	516
Conversion of riparian forest	427
Water diversion	423
Commercial/industrial development	411
Channel maintenance	401
Exotic species	375
Excessive groundwater withdrawal	230
Non-point source pollution	181
Predation	139
Excessive non-commercial harvest or collection	108
Management of/for certain species	103
Restricted range in Arkansas	57
Interspecific competition	48
Commercial harvest	43
Unknown	33

## Conservation actions needed in the Ozark Highlands

Descriptions of conservation actions linked to individual species on the list of SGCN are presented in the Species Reports, pages 44-1113. Below are categories of conservation actions recommended by the taxa association teams (Figure 3.6). An explanation of the categories follows in Table 3.6.

The score associated with the conservation action category is the sum of all priority scores associated with species for which a conservation action has been assigned, weighted by the importance of the conservation action category to the species. A higher score implies a higher quantity of SGCN and/or more greatly imperiled species would be affected by actions within this conservation action category.

These scores may be used as guides to directing the apportionment of funding toward conservation actions benefiting habitats and species of greatest conservation need.

**Figure 3.6.** Conservation action categories recommended for the Ozark Highlands.

**Table 3.6.** Conservation action categories explained.

Habitat Restoration/Improvement	Involves the improvement or restoration of habitat or habitat components
Habitat Protection	Involves the protection of existing habitat or habitat components
Fire Management	Management of fire regime
Land Acquisition	Purchase of land or conservation easements critical to species of concern
Population Management	Direct manipulation of populations of species of concern, including restocking, harvest management, and translocation efforts
Threat Abatement	Mitigation of an existing threat, such as predation, pollution, or competing species
Data Gap	Not enough information is known at this time to formulate conservation
Public Relations/Education	Public outreach and education involving species of concern or key habitats
Other	Other conservation actions not covered by these categories
